

Real 978-gene graph

Signed directed graph used by the model

Nodes: 978

Directed edges: 1739

Positive edges: 1201

Negative edges: 538

Adjacency semantics

- Column = source gene
- Row = target gene
- Positive = stimulation
- Negative = inhibition

- Regulator-like node
- Balanced node
- Receiver-like node
- Positive edge
- Negative edge
